

ENVIRONMENTAL PROTECTION POLICY STATEMENT

1. **Unicorn fire & safety solutions (Unicorn)** are committed to the protection of the natural environment by avoiding harm or nuisance whilst maintaining its operational effectiveness. Unicorn will conduct its activities in accordance with the Governments' environment policy set out in the 1990 white paper 'This Common Inheritance' and its associated reports. Unicorn is committed to compliance with the relevant legislation, including the Environmental Protection Act (EPA) 1990 and the Environment Act (EA) 1995.

Unicorn's environmental policy is to be observed throughout the organisation and will reflect the Company's' full support for the Governments' overall environment policy. The management of the environment is increasingly regulated and the legislation and imposes upon Unicorn Fire & Safety Solutions and its employees an overall duty of care which everyone needs to fulfil.

2. The Company:

Ensures compliance with the letter and spirit of the EPA and the EA (which applies to all personnel) and with all other existing environmental legislation.

Complies with international legislation where the UK is a signatory

Respects host organisations policies where The Company is working in their premises.

Will endeavour to protect and enhance the natural environment in line with the Governments' environmental strategy and the principles of stewardship and sustainability within its operational and financial restraints.

Strives to be a 'good neighbour' whenever and wherever it conducts its business.

3. To meet the main policy objectives Unicorn Fire & Safety Solutions will:

- 3.1. Assess environmental costs and benefits to ensure these are considered in procurement and other decision-making processes.
- 3.2. Pursue suitable methodologies to establish the condition of its various assets as a basis for appropriate planning action.
- 3.3. Give appropriate funding priority to environmental issues, particularly those activities involving compliance with the legislation.
- 3.4. Promote environmental awareness and performance through effective education and training.
- 3.5. Implement and operate management systems to ensure compliance with relevant legislation and demonstrate where practicable, further improvement in environmental performance.
- 3.6. Maintain expertise within The Company to manage and implement environmental protection measures.
- 3.7. Maintain an environmental policy statement as the first point of reference to ensure that Unicorn Fire & Safety Solutions activities are conducted in compliance with the law and international conventions and to provide a broad overview of the Company's' policies on environmental issues
- 3.8. Ensure that all members of the workforce including all supervisory and management personnel are aware of their personal and general responsibilities and accountability.

Mike Ablitt. Managing Director - Unicorn Fire & Safety Solutions. 1st June 2010
